

Paper ID#67: Innovative  
business models in ports'  
logistics: the 5G-  
LOGINNOV project

# 5G LOGINNOV in a nutshell

- H2020 Innovation Action with 39 months duration (started September 2020)
- 15 partners (BE, ES, FR, IT, RO, GR, SI, DE) + 5 new actors!!!

The 5G-LOGINNOV central ambition is to build a **first-class European industrial supply side for 5G core technologies**

## LL Athens Greece

## LL Hamburg Germany

## LL Luka Koper Slovenia

ORGANISED BY:

HOSTED BY:

**EUROPEAN CONGRESS**  
LISBON, PORTUGAL  
22-24 MAY 2023  
ITS: The Game Changer.

## 5G-LOGINNOV Living Labs overview

- ***Athens LL*** mainly deals with technologies for real-time tracking and enhanced visibility of 5G yard-trucks for **service optimization, job allocation and predictive maintenance**
- ***Hamburg LL*** addresses the usage of 5G to improve port operations, specifically for **connecting the Hinterland to the port's facilities**
- ***Koper LL*** focuses on 5G-enabled technologies to improve the **automation of logistics processes** in ports and to support mission critical services in the port area

### Common objectives:

- better **monitoring** of the logistics processes,
- resource **optimization**
- higher **service quality**
- **costs reduction.**

### Common risk:

- **low trust in data sharing technologies**

ORGANISED BY:

HOSTED BY:

**EUROPEAN CONGRESS**  
LISBON, PORTUGAL  
22-24 MAY 2023  
ITS: The Game Changer.

# Expected impact of 5G-LOGINNOV innovations: ATHENS

## *Main Needs addressed by 5G-LOGINNOV*

- Introduction of **AR** assisted guidance to **speed up repairs** in port assets,
- **Increasing quality** in manual production tasks
- **Lowering** the chance of **errors in warehouse** operations,
- **Reducing training** time at port operations

## *Expected impact of 5G-LOGINNOV*

### *On operations*

- Provision of **alert systems to detect human presence** and detection of **drivers' health status.**
- Improved **monitoring of container seals**
- Easier **prediction of possible breakdowns**
- Improved **maintenance capacity.**

### *On business models*

- **Better utilization of resources** and a better ability to operate on risks
- **Reduction of operating costs**

22-24 MAY 2023  
ITS: The Game Changer.

# Expected impact of 5G-LOGINNOV innovations: HAMBURG

## *Main Needs addressed by 5G-LOGINNOV*

- **Fully exploit available data from CAN-Bus and other sensor data** which can be transferred from the vehicle to the MEC (from Floating Car Data to Floating Truck and Emission Data)

## *Expected impact of 5G-LOGINNOV*

### *On operations*

- More **accuracy of data**
- More efficient and more **environmentally friendly traffic flows**
- **Easier decision-making** process
- Easier planning of innovation introduction (**truck platooning**)

### *On business models*

- **Costs minimisation**
- **More safety and better health** of the users of the area

ITS: The Game Changer.

# Expected impact of 5G-LOGINNOV innovations: KOPER

## *Main Needs addressed by 5G-LOGINNOV*

- **Security and environmental aspects of port operation related to UAVs (Unmanned Aerial Vehicles, e.g., drones)**
- **AI-assisted video analytics deployed in cloud**

## *Expected impact of 5G-LOGINNOV*

### *On operations*

- **Improved ability to analyze** information
- **Communication speed**
- **More capillary monitoring** of the port operations
- **Improve safety** parameters

### *On business models*

- Better **resilience and adaptability** of the port infrastructure
- Optimization of **resources**

## 5GLOGINNOV LLs Business Models: common features and remarks

- A common objective: **collect and share data → 5G infrastructure is the backbone**
- **Port authorities** are the most impacted stakeholders, but also **yard personnel and yard truck operators**
- Main costs: **development costs, implementation costs and administrative costs..**
- Main revenues (during the project): **European funds**. In general: **economic gains to to cost savings due to the optimization and improvements of the safety and working conditions.**
- **Greater flexibility and resilience** expected to last after the end of the project.
- 5G-LOGINNOV= opportunity to **test innovations and evaluate their effects in a small scale**
- Clear **relationships and collaboration** methods
- **GDPR and data confidentiality issues are vital to be agreed**
- Beyond the end of the project, other sources of revenues must be considered

## If you want to support 5G-LOGINNOV...

- Visit our website: <https://5g-loginnov.eu/>
- Follow us on social media: [LINKEDIN](#), [TWITTER](#)
- Fill the 5G-LOGINNOV Survey for Replicability Assessment

Notice: FINAL EVENT  
at the beginning of  
November 2023, at  
Koper LL!  
Stay tuned...
